Welfare Society

ATTIJARAH CENTER OF ISLAMIC ECONOMICS

Economic View of Founder of Islamic Republic of Pakistan

“The economic system of the West has created almost insoluble problems for humanity and to many of us it appears that only a miracle can save it from disaster that is not facing the world. It has failed to do justice between man and man and to eradicate friction from the international field. On the contrary, it was largely responsible for the two world wars in the last half century. The Western world, in spite of its advantages, of mechanization and industrial efficiency is today in a worse mess than ever before in history. The adoption of Western economic theory and practice will not help us in achieving our goal of creating a happy and contended people. We must work our destiny in our own way and present to the world an economic system based on true Islamic concept of equality of manhood and social justice. We will thereby be fulfilling our mission as Muslims and giving to humanity the message of peace which alone can save it and secure the welfare, happiness and prosperity of mankind.”

Quaid-e-Azam Muhammad Ali Jinnah

July 01, 1948

Upon inauguration of State Bank of Pakistan, the Central Bank of Pakistan.

The need of Welfare Economic System

Any economic system has a great impact upon the individuals and society. In a present world, when we talk about economic system or capitalism, we have to think that we are not just talking about an economic system only but an ideology and thinking of living in this world. According to Islam, all resources in this world belong to Almighty Allah and people may get and use these resources as a vicegerent of Allah according to His commandments. Islam is a complete code of life and provides the best ways to live a life in a good manner. Being a Muslim, it is our duty to obey the commandments of Almighty Allah. We do not need any man-made philosophies in this respect. Islamic economic system is a welfare economic system in a true sense and the history also shows the successful practical example in this respect. We have seen that the man-made economic systems and philosophies have not delivered the world a welfare system but discontentment and dissatisfaction in every walk of life. Through the real implementation of Islamic economic system, we can present the best welfare economic system before the world.

Attijarah Center of Islamic Economics

Keeping in view the responsibility to propagate the message and commandments of Islam and completion of the mission of our founder with respect to welfare economic system, Attijarah Center of Islamic Economics (ACIE) has been established with the objective to do activities in order to do research, explore, develop, promote and implement the concepts and principles of Islamic Economics, Business & Finance. Insha Allah, we will be providing solutions with respect to almost all areas of economics keeping in view the Islamic commandments.

SPECIALIZED & UNIQUE ACTIVITIES

Post Graduate Diploma in Islamic Economics

It is a comprehensive course on Islamic Economics. It clarifies the difference between conventional and Islamic economics and covers each and every aspect of Islamic economics with historical and modern facts and examples. This course will help to understand the principles of Islamic economics in an easy and convenient manner and beneficial for each and every member of the society including general public, Islamic bankers, corporate sector and students of business and economics etc.

Specialized Financial Courses, Trainings & Seminars

Since Islamic financial industry has been established and proved itself as a viable financial industry, there is a need to equip Islamic finance professionals particularly associated with formulation of products, policies and procedures. ACIE is committed to launch and arrange specialized and advanced unique financial courses, trainings and seminars with the objective to deliver advanced knowledge of Islamic finance with respect to shariah standards, Islamic financial regulations, prevalent Islamic financial products and services documentation etc. These activities will be helping Islamic finance professionals to understand the specialized Islamic financial products, policies, procedures and shariah matters in an easy and convenient manner so that they can serve the industry with full commitment and proper knowledge. The website of ACIE will be announcing about the above-mentioned courses and activities from time to time.

Publication of a full-fledged Islamic Economics Periodical-the Islamic Economist

ACIE will be issuing a full-fledged Islamic economics namely The Islamic Economist (TIE). TIE is a multi-disciplinary bi-monthly magazine dedicated to the dissemination of education and information of Islamic Economics & Finance in a broader perspective keeping in view to fulfill the theoretical, academic, practical and educational needs of the society. Insha Allah, this magazine would be equally fruitful for students, researchers, Islamic bankers, scholars and a general reader.

ACTIVITIES & SERVICES

ACIE has a wide horizon of services in the field of Islamic Economics & Finance. We offer services for all economic sectors of the society. Our services and activities include, but not limited to, the following:
